

Topping Equipment Dry Product Dispensers

Model DPD

Date:

Project:

Quantity:

Item Number:

DPD 1-Liter Single #86670 (left)
DPD 2-Liter Single #86680 (right)

Bid Description

The Dry Product Dispenser is a hopper system that accurately portions powders and other dry products. The dispenser allows portions from ¼ to 2-ounces (7 to 60 mL) by volume and is adjustable in ⅛-ounce (3.4 mL) increments. Suggestions for use include smoothie powders, iced coffee powders, mix-ins for blended ice cream drinks and cocktail powders.

Dry Product Dispensers are designed to be mounted side by side for a station of several products. Choose from 1 or 2-liter capacity models with a single, double or triple wall bracket.

A guideline for product use would be as long as it is consistent and not much bigger than ½-inch (1.3 cm) in diameter. Very fine or dissimilar products as well as those that tend to melt or stick together at room temperature are not recommended. Examples include protein and malt powders or crushed candy bars.

Standard Features

Durable, clear polycarbonate hopper shows off product

Accurately dispense dry products of a consistent material

Dispense between ¼ and 2-oz (7 and 60 mL) by volume

Adjust portions in ⅛-oz (3.4 mL) increments

No need to worry about accidental portion changes; disassembly is necessary for portion adjustment

Takes up just 5 linear inches (12.7 cm) of wall space and includes handy wall mount bracket

Silicone sleeve at end of discharge tube removes for cleaning

Warranty

Server Products equipment is backed by a two-year limited warranty against defects in materials and workmanship. For our complete warranty statement, see our Website or contact us.
