Quantity:

Item Number:

CSM 94000

ECH 94090

94013
Eutectic Ice Pack

94057
HOLDCOLD™ Jars

Bid Description

Insulated Cream Servers and Espresso Cream Holders are constructed of a stainless steel exterior and one-piece seamless plastic interior. Their compact design takes up only 8" (20.3 cm) of counter space.

The Cream Server, Drop-In Cream Server, and Espresso Cream Holder are available in (2) varieties; with a stainless steel jar and (2) round Eutectic Ice Packs or with (1) black and (1) white Hold Cold jar. HOLDCOLD™ jars will maintain serving temperature up to (12) hours, when used properly.

The Cream Server is available for countertop or drop-in use. Both feature a stainless steel pump with a cast valve body and welded construction. Maximum stroke yields 1 ounce (30 mL). Supplied gauging collars reduce the yield in ¼ ounce (7 mL) increments.

The ECH accepts a hose directly from an espresso machine into a hole in the lid.

Standard Features

Stainless steel exterior and seamless plastic interior

Includes a Stainless Steel Jar and (2) Eutectic Ice packs or (1) black and (1) white HOLDCOLD™ jar for extended cooling time

Cream Server maximum stroke yields 1 ounce (30 mL)
