

Corn Cooking Equipment

Models:
CC-19, CCC-20

Model CC-19

Model CC-19 shown with
optional food shield

Model CCC-20

The Roundup® corn cooking equipment is composed of the CCC-20 and the CC-19.

The Corn Cooker (CCC-20) assures a consistent quality corn product with an easy to use unit.

The Corn Carousel displays and slowly rotates the hot cooked corn maintaining an even heat while coating the corn in butter or margarine.

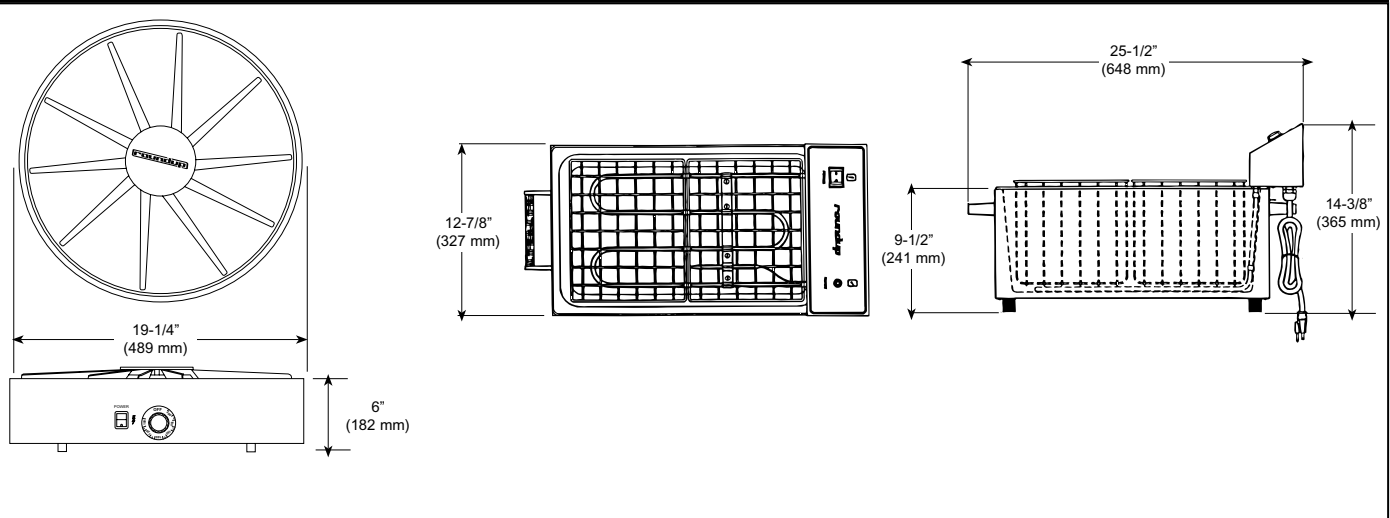

Features: CCC-20

- Uses Plain Tap Water
- Preset Cooking Time and Temp
- Easy to Clean
- Prevents Over Cooking

Features: CC-19

- Attractive Display
- Stainless Steel Construction for Durability and Long Life
- Keeps Corn Hot and Buttered
