

**Steamer Display Cabinet
Model: SDC-500**

**New
Product
Development!**

The Roundup SDC-500 Steamer Display Cabinet is designed to quickly steam pre-cooked refrigerated or frozen food products and maintain them at ready-to-eat temperatures.

The unit is lit from the top to attractively display food items to your customers.

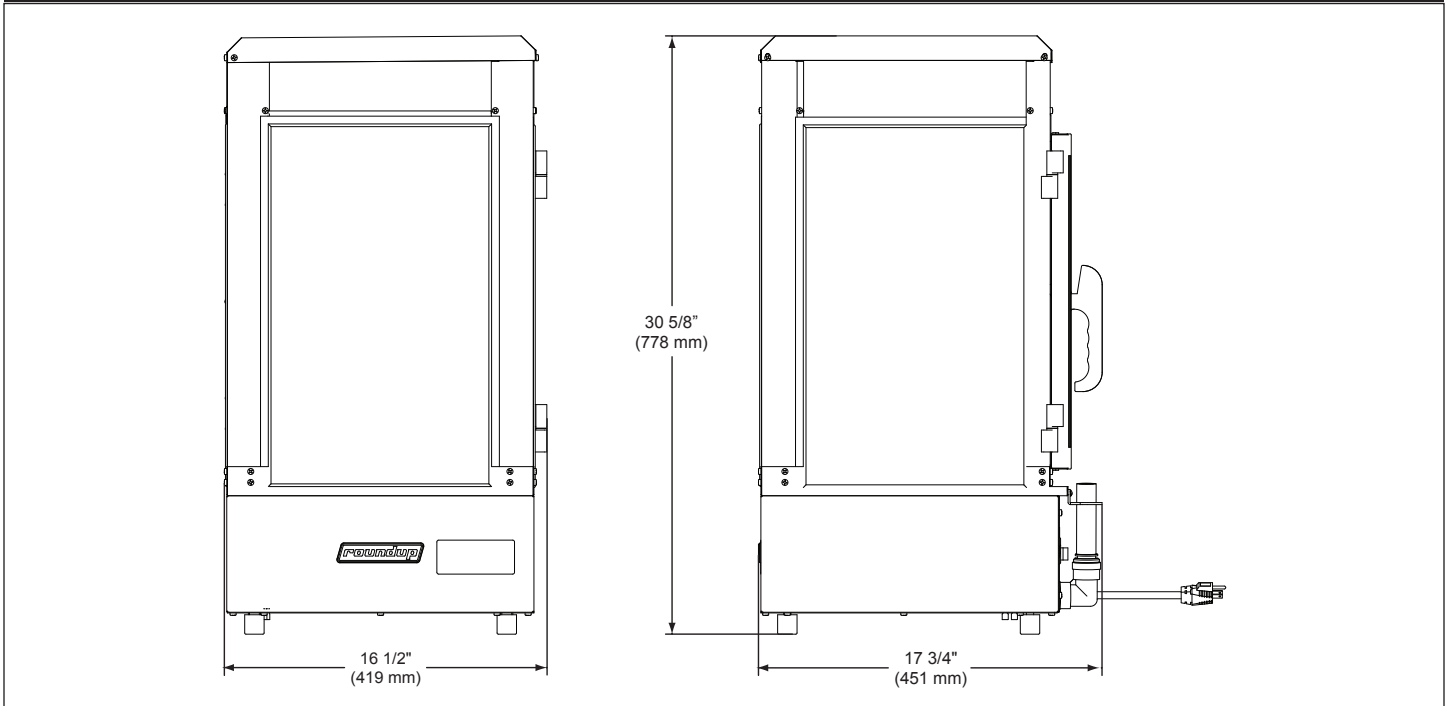

A resettable hi-limit thermostat is included for additional safety. The SDC-500 also uses an adjustable digital thermostat to allow easy temperature setting.

FEATURES:

- Uses Plain Tap Water.
- Adjustable Shelf Height and Shelf Angle.
- 5 Sliding Shelves Allow Easy Access to Product.
- Adjustable Solid State Thermostat with digital display.
- Resettable Hi-limit Thermostat turns off power to the Heater and Upper Lighting.
- Tempered Safety Glass.
- Stainless Steel Construction for Long Life.
- Easy to fill water pan.
- Unique Water Tube allows for easy monitoring of water level and can be used for quick re-filling or draining of unit.
