Commercial Refrigeration Equipment General Specifications

Select from 4 standard sizes in widths of 46"(1 door), 67" (2 door), 93" (3 door), and 119" (4 door). Overall height is 34 1/2" with units installed on 6 inch casters (2 with brakes). Cord and plug are standard for electrical hook-up.

Construction features include stainless steel exteriors and anodized aluminum interiors. Interiors accommodate sheet pans and hotel pans.. Pan slides are optionally available. Doors are self-closing on cam lift, gravity hinges and include stay open position at 120°. Magnetic, plug in, door gaskets are used to accomplish positive door sealing. Two epoxy coated, steel wire shelves are included behind each door as standard.

Insulation is foamed-in-place CFC free polyurethane at a minimum thickness of 2 inches, fully complying with environmental concerns and adding structural strength to the cabinet.

Refrigerator models will accommodate pull out drawers made optionally available. Two drawers replace one door. Each drawer can be provided with choice of pan insert 15" x 20" in depths of 5" or 8". Without insert pans, the drawers will hold the equivalent of 1 each, full size hotel pan and 3 each 1/6 size pans. Adapters are included.

Balanced refrigeration systems used in all 4 sizes of self-contained undercounter refrigerators provide high humidity storage of product at 35° to 38°. One size undercounter freezer UCF67 holds product below zero and is equipped with time activated, temperature terminated, electric defrosting. Refrigerants include CFC free R134a in refrigerators and 404A in freezers to comply with all environmental concerns.
