WORKTOP / COOK STAND REFRIGERATOR

Beverage-Air's cook stand refrigerators are designed to accommodate countertop cooking equipment and feature a full marine drip-guard edge to prevent spills from dripping over the edge. Refrigerated drawers provide ample food product storage. Working height of 26.75" on heavy duty six inch (6") casters.

Cabinet Construction

Heavy duty cabinet construction with 430 #3 finish stainless steel on front, sides, and rear. Drip guard top features 304 #3 finish stainless steel. Interior cabinet is made of corrosion resistant 300 series stainless steel. Exterior solar digital thermometer with battery backup is standard. Drawers equipped with heavy duty work flow handle. Cabinet integrity is reinforced by the use of structural columns. Cabinets are insulated with foamed-in-place polyurethane insulation of 2" thickness for added strength and maximum energy efficiency.

Drawer Construction

Drawer frames are constructed of heavy duty 12 gauge stainless steel and are supported on 12 gauge telescoping drawer slides with three stainless steel roller bearing wheels for maximum support of stored food product. Upper pull-out drawers accommodate two 6" deep 12" x 20" pans of combinations of 1/6 size pans or larger. Lower pull-out drawers accommodate two 4" deep 12" x 20" pans or combinations of 1/6 size pans or larger. Heavy duty pan divider supports are supplied. Foodservice pans are not included. A snap in type vinyl magnetic gasket is attached to each drawer for positive seal.

Refrigeration:

Self-contained refrigeration system utilizes R134a refrigerant metered by a capillary tube system. Automatic (hot gas) condensate evaporation is provided. Interior forced air system, with high humidity evaporator coils, provide the ideal environment for food preservation. Removable front thermometer panel and grille allows for easy access to complete lift-out refrigeration system.
