

Heat 'N Serve
4/3 Rethernalizer

NEW!

- Sized to hold four third-size pans or three insets with adaptor plate
- Self-insulating thermoset well for maximum energy efficiency and longer life
- Two 800W dome cast-in elements meet rethermalization standards and offer longer life
- Non-stick coating on element reduces scale build-up for longer service life
- Capillary tube thermostat for more effective temperature control
- 18-8 stainless steel wrapper for easy cleaning and longer life
- Raised drip edge/bead on thermoset well keeps condensation in well and off the counter
- Recessed control prevents accidental temperature changes and damage
- Pans, insets and adaptor bars sold separately
- Adaptor plate (Item 19188) with three 8-3/8" (21.3 cm) diameter holes for 7-1/4 quart round insets sold separately

Without drain - US version
