

Regal Ware Aluminum Commercial Coffee Makers

The **58155R** features a durable nonstick interior and exterior coating for cleaning. The satin finish on the cover and base will maintain a new look longer than standard polished aluminum. Coffee is brewed at less than one minute per cup. The 58155R has a keep warm cycle that begins immediately following the brew cycle to keep the coffee at its ideal drinking temperature. The faucet has mug clearance and a sight glass for easy viewing of the coffee in the urn.
