Compact Manual Slicer

GC12D

Specifications

Finish: Heavy gauge anodized aluminum that is stain resistant, long lasting, and easy to clean.

Motor: Powerful 1/2 HP, fan cooled, 115-60-1, 6 amps, permanently lubricated ball bearings ensure quiet operation.

Knife Drive: Knife is driven by positive grooved belt that works well in light to medium duty applications.

Slice Thickness: Food can be sliced from 0 to 5/8" thick.

Knife Cover Interlock: Slicer will not operate with the knife cover removed.

Top Mounted Sharpener: Sharpener is made of all metal and is permanently mounted on the slicer. A two stone, dual action design allows you to quickly return a razor sharp edge to your knife.

Hollow Ground Knife: Nominal 12" diameter, hard chromed, hollow ground blade lasts longer and sharpens easier.

Capacity: Hold round pieces up to 9" in diameter and flat pieces up to 11" in width.

Knife Hub: Knife hub bearings, belt, and motor are fully enclosed protecting them from food and other debris.

Table Rod: Separate table support rod is protected by the table casting and cover.

Underside: Components are covered by a metal plate protecting them from food and other debris.

Slice Deflector: Heavy duty deflector is securely fastened to the slicer, yet is still easy to remove without tools.

Cord & Plug: Attached 6 foot flexible 3 wire cord and plug fits a grounded receptacle.

Dimensions:
Overall Length = 18" (46cm)
